IN THE CLAIMS

Please amend the claim as follows:

6. (Amended) A primary station as claimed in claim 3, characterised in that communication to the secondary station of required changes in its rate of adjustment of output power is made after the measured signal characteristic has passed a threshold for a predetermined period.

7. (Amended) A primary station as claimed in claim 4, characterised in that further properties of the received signal are used to verify the rate of change of output power determined from the rate of change of received signal to interference ratio.

8. (Amended) A primary station as claimed in claim 3, characterised in that means are provided for determining the speed
